

# Surface Finishing

by SCHWEIZER

Custom solutions  
for ceramics, metal and glass

Lapping

Grinding

Polishing

Honing

Cylindrical grinding

# Your vision - our mission

## Individuality, flexibility and quality

Our experience and expertise combined with customer satisfaction and the dedicated commitment of our employees have made SCHWEIZER a renowned expert for surface finishing solutions.

## Expertise and precision since 1840

Founded in 1840, A. SCHWEIZER GmbH is one of the oldest owner-managed companies in the German ophthalmic optics sector. The rising interest of a wide variety of industrial companies in the knowledge gained in the high-precision surface finishing of lenses and other components led to the founding of the subsidiary SCHWEIZER OFB GmbH. Today, we offer our customers myriad solutions for the surface finishing of hard materials and metals.

## Qualified and certified

We at Schweizer are committed to meeting the quality requirements of our customers. From quotation to delivery of the finished components, our quality management assures compliance with the required specifications along all stages of the production process. SCHWEIZER has been continuously DIN ISO 9001 certified since 2003.
